

Robocall Mitigation Program

Buzzer Technologies INC.
550 Pacific Street
Vancouver, BC V6Z3G2

We use software and services provided by Bandwidth.com to monitor our outbound voice traffic in real-time to prevent the origination of illegal robocalls.

Measures implemented to avoid originating Robocall traffic:

- Buzzer does not knowingly engage with customers whose business involves originating Robocall traffic
- Any traceback requests from the FCC, law enforcement, or the industry traceback consortium will have full cooperation from Buzzer Technologies INC. to stop or investigate illegal Robocallers.
- No Outbound calls can show an outbound caller ID that differs from a phone number owned by the Customer.
