Phone: (514)334-3444

Introduction:

Digital Domain is a general I.T. Solutions provider providing technical support, network administration, development, and VoIP solutions for small to medium sized businesses.

Digital Domain's Robocall Mitigation Plan

1. Digital Domain does a background check of all supported customers and only supports customers in professional and service fields such as dental / medical clinics, real estate management, transport industry, etc.
2. Digital Domain does not knowingly engage with customers whose business involves originating Robocall traffic
3. Digital Domain does not provide VoIP services to call centers.
4. Digital Domain will gladly provide requested information to authorities when requested such as all call records of requested dates.
5. Digital Domain will cut VoIP services from any clients who would be suspected to perform robocalls.
6. 95%+ of VoIP traffic going out from Digital Domain VoIP services remain local to the province of Quebec. International routing is enabled on demand for the requested countries and monitored.
7. As a part of the Robocall Mitigation Program, Digital Domain performs and take other reasonable steps to avoid illegal robocall traffic in its network.
8. Digital Domain will review our Robocall Mitigation Plan and update it as necessary to adapt to the everchanging robocall landscape and to meet the requirements of applicable laws. Any changes to this plan will be immediately filed and updated to the FCC Robocall Mitigation Database.

Daniel Dahan

Senior I.T. Consultant.
