Subject: Certification to comply with traceback request.

PLDTS certifies that it commits to respond to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls, and that none of the voice traffic that originates on its network is authenticated with STIR/SHAKEN due to the fact we aggregate VoIP Traffic from many of our international partners.

At PLDTS we have repeated ANI / CLI inspection/validation parameters setup, which is actively searching of the robot's generated calls, especially with the same ANI/ CLI, also we actively monitor the Origination of the international VoIP traffic and its Statistic and if they fall below certain parameters, we block the carrier with immediate effect.

Sincerely
