

Subject: Response to Robocall Mitigation Certification Requirements

To whom it may concern,

We acknowledge the requirements outlined under the amended rules for Robocall Mitigation Database (RMD) certifications and provide the following information and assurances as per the guidelines:

1. Certification of Robocall Mitigation Program

We certify that:

- All calls originating on our network are subject to a comprehensive **robocall mitigation program**.
 - Our previous certifications remain valid and have not been subject to Commission removal or prohibition from filing in the RMD.
 - Our implementation of **STIR/SHAKEN** protocols is supported by our SIP provider, **BeeVOX**, ensuring that all calls are signed in compliance with **FCC requirements** regarding STIR/SHAKEN.
-

2. Robocall Mitigation Plan

We have developed and implemented specific measures to prevent the origination, carrying, or processing of illegal robocall traffic, tailored to our role in the call chain:

- **New and Renewing Customers:**
 - We have effective measures in place to ensure that new and renewing customers are screened to prevent the origination of illegal robocalls. This includes requiring attestations, monitoring traffic patterns, and terminating agreements for non-compliant customers.
- **Call Analytics Systems:**
 - We utilize Beevox, which monitor and block suspicious traffic, flag anomalies, etc.

3. Identifying Information

Our business details are as follows:

We take care of IT for you.

- **Business Name:** Lexcom Systems Group USA, LLC
 - **Address:** 707 Turtle Creek Dr
 - **Contact Person:** Bryan Janz
