FCC FRN # 0032247595

Dealer Lead Track LLC has fewer than 100,000 VOIP service subscriber lines and is therefore exempt from the requirements of 47 CFR sec 64.6301 until June 30th, 2023.

Dealer Lead Track LLC will comply with all trace back requests from Federal Communications Commission, law enforcement agencies and the industry traceback consortium and cooperate with said entities in the quick investigation and cessation of any entities that use its services to originate illegal robocalls.

We provide call forwarding services for voice calls only to our selected business customers that we vet through normal business practices and never resell any line service to non-relationship businesses. We have established relationships to all businesses using our lines and our system only allows for inbound voice call forwarding to our customers.

We constantly monitor each line's usage to detect any significant deviation from the typical outbound call volume.

If you have any questions or concerns, please contact me at benitasilvestri@dealerleadtrack.com or 404-436-2757.

Respectfully submitted on 04-14-2022

Warm regards,

Benita Silvestri
