

Simplii is a leading VOIP telecommunications company based in the United States, specializing in providing innovative and cost-effective communication solutions for businesses of all sizes. We offer seamless connectivity through both softphones and desk phones, ensuring flexible and reliable communication throughout the United States.

We are working with [TransNexus, Inc.](#) to implement Stir/Shaken to use authentication methods for preventing illegal Robocalls operating through our networks and to block anything incoming or outgoing that is not authorized, ensuring compliance with the regulations from the FCC requirements.
