SOP 4.2.1

Honxtele® Compliance Management

illegal robocall traffic Mitigation

Following key strategies are followed/maintained regularly to avoid Illegal Robocalls.

1. New customer onboarding probation/Traffic Profiling
2. Network Blacklist
3. User Blacklist
4. Government data
5. Analysis on Live Traffic Flows
6. Historical Data
7. Calling/Called number scoring (Do not Originate)
8. IP banning (media IPs)
9. Voice CAPTCHAs (Inward traffic)
10. Voicemail Diverts (outbound)
