

Kidwell Co Robocall Mitigation Plan for FCC - 20240329

Date: 2024-03-29

Kidwell Co only offers outbound calling through **(REDACTED)**. Therefore, we quote Bandwidth's STIR/SHAKEN docs as evidence of our compliance:

Source URL: **(REDACTED)**

What is **(REDACTED) doing for STIR/SHAKEN?**

(REDACTED) implemented STIR/SHAKEN in our network in December 2019 and we're currently signing over 4 billion calls each month. We've established interoperability with major carriers and other enhancements that will support our customers' compliance with STIR/SHAKEN.

Additionally, we log all of the STIR/SHAKEN data provided by **(REDACTED)** gateway with every voice call event that we receive, as well as caller ID info.
