

Solid Networking Solutions Corp.

ROBOCALL MITIGATION PLAN

Solid Networking Solutions Corp, FCC Registration Number (FRN) 0031425366, operates as a pure reseller by purchasing numbers from our originating service provider (VoIP Innovations) and utilizing their API to make outbound calls without using any other providers or controlling the underlying network infrastructure. Since we rely exclusively on our originating service provider's (VoIP) infrastructure via their API rather than managing our own network facilities, we qualify as a pure reseller that is reselling our originating service provider's (VoIP) services without network infrastructure control, which means we certify as "No STIR/SHAKEN Implementation" in the Robocall Mitigation Database and do not need to obtain our own SPC token.

Solid Networking Solutions Corp does not have control over network infrastructure necessary to implement STIR/SHAKEN, pursuant to 47 CFR 64.6305(d)(2)(i), and therefore has no STIR/SHAKEN implementation obligation.

Robocall Mitigation Plan

All voice traffic that originates through our service is subject to the following Robocall Mitigation Plan.

The following is an outline of steps deployed to combat the origination of illegal robocalls:

Customer Verification and Know Your Customer

Solid Networking Solutions Corp vets all new customers and does all installs before providing service

We gather contact information and verify customer identity

We verify business legitimacy for commercial customers

We require customers to provide documentation for authorized use of phone numbers

Traffic Monitoring and Investigation

Solid Networking Solutions Corp. monitors call patterns and volumes for all customer accounts to identify suspected robocall activity

If any unusual patterns are discovered, Solid Networking Solutions Corp will immediately investigate.

We take appropriate action including service suspension, account termination, and notification to law enforcement authorities, the FCC, and the FTC Customer Agreement and Enforcement

Solid Networking Solutions Corp. requires all customers to acknowledge in their service agreement that it is illegal to:

Spoof or falsify caller ID for fraudulent purposes

Make unsolicited telemarketing calls without proper authorization

Originate illegal robocalls or participate in robocalling schemes

Customers found abusing our service will be immediately disconnected and reported to appropriate authorities

We maintain strict contractual terms allowing immediate termination for violation of robocall regulations

Know your customer

All voice customers of Solid Networking Solutions Corp are **current and active IT** customers of Solid Networking Solutions Corp. The owner of Solid Networking Corp vets everybody thoroughly before we take them on as an IT customer.

Upstream Provider Compliance

Solid Networking Solutions Corp. verifies that our originating service provider is listed in the Robocall Mitigation Database with proper STIR/SHAKEN implementation

We rely on our provider's Robocall Mitigation Plan to ensure they properly monitor and authenticate originating traffic

Role In the Call Chain

Solid Networking Solutions Corp. is a pure reseller voice service provider without control over network infrastructure and therefore has no STIR/SHAKEN implementation obligation. We rely entirely on our originating service provider's STIR/SHAKEN implementation and network infrastructure to authenticate and sign calls on our behalf.

Traceback

Solid Networking Solutions Corp. is committed to cooperating with the Commission, law enforcement, and the industry traceback consortium in investigating and stopping any illegal robo callers that we learn are using our service to originate calls. We will respond to

traceback requests from the Commission, civil and criminal law enforcement, and the industry traceback consortium fully and in a timely manner within twenty-four (24) hours.

Robocall Mitigation Database Eligibility

Solid Networking Solutions Corp has not been involved in any recent, formal law enforcement or regulatory investigation into suspected unlawful robocalling

Solid Networking Solutions Corp. has not been prohibited from filing in the Robocall Mitigation Database (RMD)

Solid Networking Solutions Corp. certifies "No STIR/SHAKEN Implementation" due to lack of control over network infrastructure necessary to implement STIR/SHAKEN, pursuant to 47 CFR 64.6305(d)(2)(i)
