Robocall Mitigation Program
USA

To the Robocall Mitigation Team,

As requested, here is a searchable PDF with the reasonable steps I have taken to avoid originating robocalls.

I have taken the following steps to ensure that there is no robo-callers originating through my system.

- All of my clients are local companies that have existed for a few years and have been personally vetted by me before being signed up
- Users are limited to only use their owned DID's that they have purchased through me
- Set up a strict no robocalling policy that if gets invoked, ends in immediate termination of contract with the client

Sincerely yours,

Avremy Cohen
