To whom it may concern

Dear Sirs,

I certify that STIR/SHAKEN is not fully implemented at the moment in our company.

We have a very small VoIP traffic (less than 1000 minutes per month) and small active users base (below 100 subscribers at the moment). We know every customer we do KYC for our customers before we allow them to use our services. We are ready to cooperate in case of any robocall activity will be detected, I.e. we commit to fully and timely respond to all traceback requests and to cooperate in investigating and stopping illegal robocallers using our service.

Best Regards,

Nik Korchewski
