

Robo Call Migration Certification Choice

Option 3: No STIR/SHAKEN Implementation – Performing Robocall Mitigation. The filer certifies that it commits to respond to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls, and that none of the voice traffic that originates on its network is authenticated with STIR/SHAKEN, and that all of the voice traffic that originates on its network is subject to a robocall mitigation program. The filer also certifies that the attached searchable PDF details the specific reasonable steps it has taken to avoid originating illegal robocall traffic as part of its robocall mitigation program, and, if applicable, the type of extension or extensions it received under 47 CFR § 64.6304.

Reasonable steps to avoid originating illegal robocall traffic

Class 5 servers are used in interim to investigate clients call recordings. As a next step we do the following:

- 1) Investigate clients company website and type of service they provide**
- 2) Collect legal documents such as copy of registration, EIN documents etc..**
- 3) We will conduct random investigation of calls by checking their recorded audio file and calling their numbers**
