

Liscio robocall mitigation program

Liscio is a vertical SaaS solution for accounting firms to interact with their clients and prospects. Liscio principally serves accounting firms located in North America.

- Liscio's clients are required to agree to Liscio's Master Service Agreement that includes language that prevents users from conducting illegal activities, including spamming prospects and clients.
- Liscio provides access for users to buy and/or transfer their phone lines to communicate with clients and prospects.
- Liscio does not and will not provide tools to automate the sequence of calls and/or "power-dial" numbers.
