

Option 3: No STIR/SHAKEN Implementation – Performing Robocall Mitigation. The filer certifies that it commits to respond to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls, and that none of the voice traffic that originates on its network is authenticated with STIR/SHAKEN, and that all of the voice traffic that originates on its network is subject to a robocall mitigation program. The filer also certifies that the attached searchable PDF details the specific reasonable steps it has taken to avoid originating illegal robocall traffic as part of its robocall mitigation program, and, if applicable, the type of extension or extensions it received under 47 CFR § 64.6304. -----

Dominet clients and resellers with route providers over VOIP. Dominet Completes the task using a Softswitch which whitelist the client and supplier IPS and pass over the traffic over the VOIP switch. DomiNET takes steps to verify each client that uses the DomiNET services and all data is available to law enforcement upon request if any issues arise. We expect each of our customers to take a proactive approach in identifying this traffic and removing it from the DOMINET network. For Traceback requests of any kind, we commit to provide details to us / respective agencies in a timely manner, and in accordance with their established process. Additionally if the traffic is coming from an end-user, we make the client remove that customer from the network on immediate basis. If client do not complete the trace back process, Client is treated as the end-user who committed the fraud and will be terminated from our network. If we receive any Tracebacks requests such as Social Security scams, IRS scams, or impersonation of any other governmental agency, we will take immediate action by suspending client access to our network and freeze their remaining Balance on the account. Even if client comply with the official US based Traceback agencies process but there is 3 or more recurrence of the illegal activity, we discontinue service to the client. These fraud centres are looking for new access points into the US telecom infrastructure, so we ask our clients to be vigilant in their new customer evaluations to understand the type of traffic that will be passed amongst our voice partners. DOMINET only accepts traffic that complies with applicable United States laws and regulations. We encourage clients to assist with eliminating the criminal activity from our respective networks, and operate as appropriate with the authorities empowered to protect US Residents. We make sure our client understands and develop new policies to prevail in the battle against illegal Robocalling.
