

Robocall Mitigation Plan for A. Shammah Corporation (FRN: 0034449488)

Business Status:

A. Shammah Corporation is currently not operational and has no active clients, infrastructure, or traffic originating on its network. This plan is submitted in preparation for future operations and to ensure compliance with FCC requirements.

Mitigation Measures

Call Verification and Monitoring

A. Shammah Corporation will implement the STUN Protocol (Session Traversal Utilities for NAT) as part of its strategy to manage and authenticate VOIP traffic. This measure will prevent unauthorized call origination and mitigate illegal robocalls by ensuring proper routing through NAT devices.

The company will monitor all call traffic patterns to identify and block suspicious or unauthorized call behavior once operations begin.

Customer Verification Procedures

A. Shammah Corporation will implement strict customer onboarding procedures to verify the legitimacy of new clients. This includes:

Obtaining and verifying government-issued identification and business documentation for corporate clients.

Screening for compliance with FCC and legal standards for call origination.

Call Analytics Systems

The company will deploy third-party call analytics tools to identify and block illegal robocall traffic. These tools will be used to analyze call volume, patterns, and destinations to detect anomalies indicative of potential abuse.

Upstream Provider Vetting

Only FCC-compliant upstream providers will be used. A. Shammah Corporation will conduct periodic reviews to ensure that all upstream providers maintain adherence to FCC standards for call origination and transmission.

Traceback Request Compliance

A. Shammah Corporation commits to responding fully to traceback requests from the FCC, law enforcement agencies, or industry traceback initiatives within 24 hours.

Compliance Commitment

A. Shammah Corporation affirms its commitment to comply with FCC rules and regulations for robocall mitigation.

The company will update this plan as operations commence or if the FCC issues new guidance.

Certification for Non-Operational Status

As of the date of this filing, *A. Shammah Corporation* (FRN: 0034449488) is non-operational and does not originate, carry, or process any voice traffic. This includes the following:

1. No network infrastructure is in place.
2. No clients are actively using the service.
3. No calls are being originated, transmitted, or terminated through our system.

We affirm that the submitted Robocall Mitigation Plan reflects preparatory measures for future compliance and that any required updates or implementations (e.g., STIR/SHAKEN or STUN Protocol) will be completed prior to the commencement of operations.

This information is accurate and truthful to the best of our knowledge.
