

BRIZZLENET LLC

ROBOCALL MITIGATION PLAN (RMP)

Prepared in Compliance with FCC Regulations, TRACED Act, and STIR/SHAKEN Framework

1. COMPANY INFORMATION

Legal Name: Brizzlenet LLC

Business Address: 100 Enterprise Dr, STE 301, Rockaway, NJ 07866, USA

Type of Provider: Voice Service Provider / Intermediate Carrier

FCC Registration: 0034771436

Operating Company Number (OCN): 118L

Point of Contact (POC):

Name: James Leo

Email: sales@brizzlenet.com

Phone: 914-904-7712

2. PURPOSE AND SCOPE

This Robocall Mitigation Plan is established to:

- Prevent the origination, transmission, and termination of illegal robocalls across Brizzlenet's network
- Ensure full compliance with FCC rules
- Align with the TRACED Act, STIR/SHAKEN framework, and Robocall Mitigation Database (RMD) requirements
- Demonstrate "reasonable steps" to mitigate unlawful traffic, as mandated by the FCC

3. REGULATORY COMPLIANCE FRAMEWORK

Brizzlenet acknowledges and complies with:

- Mandatory participation in the FCC Robocall Mitigation Database (RMD)
- Filing and maintaining accurate certification and mitigation plan documentation
- Requirement to update filings within 10 business days of any material changes
- Obligation to block traffic from non-compliant providers lacking RMD certification
- Enforcement penalties up to \$23,727 per illegal call violation

4. STIR/SHAKEN IMPLEMENTATION

Brizzlenet implements and maintains the STIR/SHAKEN caller authentication framework to ensure caller ID integrity.

- Authenticate all SIP-based calls using STIR/SHAKEN protocols
- Apply attestation levels (A, B, C) based on customer verification

- Ensure compliance with FCC rules on third-party authentication (effective 2025–2026)
- Only authorized and verified customers may originate traffic
- Caller ID spoofing is strictly prohibited
- Continuous monitoring of authentication failures and anomalies
- For non-IP traffic, alternative mitigation measures are applied

5. ROBOCALL MITIGATION PROGRAM

- Customer identity verification (KYC)
- Real-time traffic monitoring and anomaly detection
- Blocking of illegal robocall sources and Do-Not-Originate lists
- Rate limiting and dynamic throttling for suspicious traffic

6. TRACEBACK AND LAW ENFORCEMENT COOPERATION

- Respond to traceback requests within 24 hours
- Cooperate with FCC, law enforcement, and traceback consortium
- Provide call detail records when required

7. PROVIDER MANAGEMENT

- Accept traffic only from FCC RMD-listed providers
- Suspend non-compliant partners immediately

8. NETWORK SECURITY

- Fraud detection systems
- IP reputation filtering
- Geo-validation and risk scoring

9. RECORDKEEPING

Maintain records including onboarding data, CDRs, authentication logs

Retention: Minimum 24 months

10. GOVERNANCE

- Compliance officer assigned
- Staff training and periodic audits

11. ENFORCEMENT

- Immediate suspension of violators
- Remediation requirements

12. CONTINUOUS IMPROVEMENT

- Ongoing updates to comply with FCC changes

13. CERTIFICATION

Brizzlenet certifies compliance with FCC robocall mitigation requirements
