Certification

*Non-Gateway Intermediate Provider Certification (Choose one)

- ☐ Option 1: Complete STIR/SHAKEN Implementation. The filer certifies that all of the calls that it carries or processes on its network are subject to a robocall mitigation program consistent with 47 CFR § 64.6305(c), which shall include reasonable steps to avoid carrying or processing illegal robocall traffic and shall include a commitment to respond fully and within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to carry or process calls. The filer also certifies that any prior certification has not been removed by Commission action and it has not been prohibited from filing in the Robocall Mitigation Database by the Commission, and that it has fully implemented the STIR/SHAKEN authentication framework across its entire network and all calls it carries or processes are compliant with 47 CFR § 64.6302(c).
- ☐ Option 2: Partial STIR/SHAKEN Implementation. The filer certifies that all of the calls that it carries or processes on its network are subject to a robocall mitigation program consistent with 47 CFR § 64.6305(c), which shall include reasonable steps to avoid carrying or processing illegal robocall traffic and shall include a commitment to respond fully and within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to carry or process calls. The filer also certifies that any prior certification has not been removed by Commission action and it has not been prohibited from filing in the Robocall Mitigation Database by the Commission, and that it has implemented the STIR/SHAKEN authentication framework on a portion of its network and all calls it carries or processes on that portion of its network are compliant with 47 CFR § 64.6302(c).
- ☐ Option 3: No STIR/SHAKEN Implementation. The filer certifies that all of the calls that it carries or processes on its network are subject to a robocall mitigation program consistent with 47 CFR § 64.6305(c), which shall include reasonable steps to avoid carrying or processing illegal robocall traffic and shall include a commitment to respond fully and within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to carry or process calls. The filer also certifies that any prior certification has not been removed by Commission action and it has not been prohibited from filing in the Robocall Mitigation Database by the Commission, and that it has not implemented the STIR/SHAKEN authentication framework on any portion of its network for carrying or processing calls.

*State the rule that exempts the filer from compliance and explain in detail why that exemption applies to the filer (if you require more space, please provide this information in your robocall mitigation program description).

Title 47 Chapter | Subchapter B Part 64 Subpart HH 64.6300 (g), (i). VariNet neither originates or terminates voice traffic. VariNet acts as a Non--Gateway Intermediate Provider
