If Company determines that the identified traffic is not illegal, Company shall provide the Enforcement Bureau with an explanation as to why Company reasonably concluded that the identified traffic is not illegal, and what steps it took to reach that conclusion.

KYC Practices:

We have a direct relationship with all of our clients. We have met in person, we have discussed the client's needs, we have specifically asked them what they need in order to be successful for what they do. We encourage them all to call us and ask us questions, tell us adjustments they would like us to make. We want the client to feel comfortable with our system and what we are designing for them. This is something that they do not do all of the time, our goal is to get them as comfortable as possible so that they can do what they need to on a daily basis.

J&B Communications of IL, Inc. has one upstream provider from which it receives voice traffic:

The Company is able to block the originating number(s), terminating numbers(s), trunk(s) or customer, including termination of customer relationship to prevent robocalling, invalid originating number or spoofed origination number transiting the Company's networks.
