Finger Lakes Communication Group Inc.

Netspeed Management, Inc. originates all calls via SIP connections handled by a Metaswitch operated by a GoNetspeed affiliate, CRC Communications LLC d/b/a GoNetspeed (OCN 1255) (“CRC”). CRC is registered with the Policy Administrator and is an authorized service provider in the STIR/SHAKEN ecosystem. Netspeed Management, Inc. has implemented STIR/SHAKEN within its network and CRC Communications LLC d/b/a GoNetspeed signs the calls originating on the IP portions of the Netspeed Management, Inc. Network.

ROBOCALL MITIGATION PLAN

All voice traffic that originates on Netspeed Management, Inc.'s network is subject to the following Robocall Mitigation Plan.

Netspeed Management, Inc.'s affiliate CRC has contracted with Equinix to provide robocall analytics and reputation scoring of the network's outbound traffic. Equinix uses software to monitor outbound voice traffic using call detail records in 15-minute to 6-hour intervals and will send detailed reporting identifying if the network originates any calls where the calling number is invalid, unallocated, or is otherwise suspicious. If suspicious activity is detected, Equinix will send an alert to the Network Operations Center (NOC) that is shared by GoNetspeed affiliates.

Call Analytics & Investigation

Netspeed Management, Inc. investigates calls identified by Equinix as suspicious calls or those that have abnormal call volumes, patterns, or activity consistent with illegal robocalls. When Equinix sends an alert to the NOC an employee will evaluate the report to determine if the traffic is legitimate or not. If the traffic appears suspicious, the employee will contact the customer. If the traffic is not legitimate, the employee will block the customer's access.

Enforcement

Illegal robocalls and fraudulent spoofing are prohibited on the Netspeed Management, Inc.'s network. If it is determined that a Netspeed Management, Inc. customer is using the network to fraudulently spoof calls or to originate illegal robocalls, Netspeed Management, Inc. will either warn the customer to stop such practices and/or terminate their service as allowed per the terms of service.

Know Your Customer

Netspeed Management, Inc. has procedures in place to prevent new and renewing customers from using the network to originate illegal robocalls. Netspeed Management, Inc. thoroughly vets new residential and business customers by asking personally identifiable questions for additional security on each account before activating new service or making changes to existing services. Residential customers are asked to provide their full name, address (physical and mailing, if different), last four digits of their social security number, date of birth, phone number, and email as well as establish a security question and a password. Business customers are asked to provide their full name, address (physical and mailing, if different), tax identification number, phone number, and email, as well as establish a security question and a password. To initiate an account change, a customer must provide their password or the answer to their security question prior to initiating a change. If the customer is unable to provide that information, the customer service representative will call the customer back using the number they provided at account setup.

In addition, all end users agree to terms and conditions of service that prohibit use of Netspeed Management, Inc.'s network for fraudulent or illegal purposes. If end users are found in violation of the terms of service, the end user's service may be suspended or terminated after an investigation.

Know Your Upstream Providers

Netspeed Management, Inc. and its affiliate CRC know all the carriers with which they have agreements in place to exchange traffic. Netspeed Management, Inc. and CRC have confirmed that all carriers they are connected to and exchange traffic with are listed in the Robocall Mitigation Database. Netspeed Management, Inc. has also reviewed the connected carriers' RMPs to learn how the carriers monitor their originating traffic to mitigate illegal robocalls. Netspeed Management, Inc. does not directly receive traffic from any foreign originating or intermediate provider. No provider is using Netspeed Management, Inc.'s network to carry or process a high volume of illegal traffic onto the U.S. network. In addition, Netspeed Management, Inc. is now incorporating traceback and prohibited traffic language in all new contractual agreements with upstream carriers.

Role In the Call Chain

Netspeed Management, Inc. is a voice service provider with a STIR/SHAKEN implementation obligation on its network.

Traceback

Netspeed Management, Inc. will respond to traceback requests from the Commission, civil and criminal law enforcement, and the industry traceback consortium fully and in a timely manner within twenty-four (24) hours.

Robocall Mitigation Database Eligibility

Netspeed Management, Inc. has not been involved in any recent, formal law enforcement or regulatory investigation into suspected unlawful robocalling.

Netspeed Management, Inc. has not been prohibited from filing in the Robocall Mitigation Database (RMD).
