Certification Status: Full STIR/SHAKEN Implementation

1. Introduction

Quick Fix Network, LLC (hereafter "the Company") is dedicated to the prevention of illegal robocalls and the enhancement of call authenticity across our network. This document certifies our full implementation of the STIR/SHAKEN standards across our all-IP network, in compliance with FCC guidelines.

2. Network Description

Our firm offers an extensive range of interconnected Voice over Internet Protocol (VoIP) solutions tailored to meet the needs of various clients, including businesses. We operate on a completely IP-based network framework, utilizing Clearly IP's cloud infrastructure for our Session Initiation Protocol (SIP) trunking services, enabling the implementation of the latest security and authentication technologies, including STIR/SHAKEN.

3. Full STIR/SHAKEN Implementation

We have successfully deployed STIR/SHAKEN across our entire network, ensuring that all voice calls processed through our systems are authenticated and verified according to the latest industry standards. This full implementation covers 100% of our traffic, providing our customers with the highest level of protection against caller ID spoofing and fraudulent robocalls.

4. Implementation Details

Authentication and Verification: All outbound calls from our network are signed with a digital certificate, ensuring the caller's identity is authenticated. Similarly, all inbound calls are verified to confirm the authenticity of the caller ID information.

Trace Back Participation: The Company actively participates in industry-wide trace back initiatives, working collaboratively with other service providers and law enforcement to identify and mitigate sources of illegal robocalls.

Consumer Protection Tools: We provide our customers with advanced call blocking and labeling services, allowing them to better manage unwanted calls. These tools are continuously updated to leverage the benefits of STIR/SHAKEN authentication.

Public Awareness and Education: Quick Fix Network, LLC is committed to educating our customers about robocall scams and the measures they can take to protect themselves, further leveraging the advantages of STIR/SHAKEN.

5. Compliance and Monitoring

The Company maintains strict compliance with FCC regulations regarding call authentication and robocall mitigation. We regularly monitor our network for compliance with STIR/SHAKEN standards and adjust our practices as needed to address emerging threats and technological advancements.

6. Conclusion

Through full implementation of STIR/SHAKEN and ongoing commitment to network security and customer protection, Quick Fix Network, LLC aims to lead by example in the fight against illegal robocalls. We are dedicated to maintaining the highest standards of call integrity and consumer trust.

Certification

I certify that the information provided in this submission is accurate and that Quick Fix Network, LLC fully complies with the FCC's STIR/SHAKEN implementation and robocall mitigation requirements.

Signed,

Christian Franco, CEO
