Voice Role in Call Chain
Voice Service Provider without a STIR/SHAKEN Obligation
Provide a description of any such action or investigation, including all law enforcement or regulatory agencies involved, the date that any action or investigation was commenced, the current status of the action or investigation, a summary of the findings of wrongdoing made in connection with the action or investigation, and whether any final determinations have been issued (if you require more space, please provide this information in your robocall mitigation program description).
Voice Service Provider Exemption Rule
Fusion Enterprises is a reseller of white labeled services offered by Viirtue, for which Fusion Enterprises does not control the soft switch, number porting or call trunking for the associated calls. In the Second Caller ID Authentication Report and Order, 36 FCC Rcd 1859,1868, para. 19 (citing First Caller ID Authentication Report and Order, 35 FCC Rcd at 3260, para. 40), the Commission stated that such providers do not have a STIR/SHAKEN obligation ("And we clarified that voice service providers which lack control over the network infrastructure necessary to implement STIR/SHAKEN are not subject to our implementation requirements.")
