

YONDERTELE INC

Robocall Mitigation Plan

Introduction and Overview

YONDERTELE INC is dedicated to maintaining the highest standards of network integrity and customer trust. This Robocall Mitigation Plan outlines the measures and strategies we employ to prevent and mitigate the impact of illegal robocalls, in accordance with Federal Communications Commission (FCC) regulations and industry best practices.

Company Information

- Business Address: 551 South I-35 Frontage Rd, Suite #388, Round Rock, TX 78664, USA
- Company Phone Numbers: Main: +15123332227, Mobile: +15127579210
- FCC Registration Number: 0035000546

Robocall Mitigation Measures

- Subscriber Vetting: YONDERTELE INC rigorously vets new customers to ensure compliance with legal and regulatory standards. We sell services exclusively to registered businesses. As part of our onboarding process, we require the submission of a W9 form and proof of EIN registration with the IRS. We do not activate services without thorough verification of these documents, ensuring all transactions are with legitimate entities.
- Traffic Monitoring: Our network is equipped with state-of-the-art monitoring systems to detect patterns typical of robocall traffic, such as high volume and unusual call durations. Additionally, we include clauses in our terms and conditions to ensure every call on our network is human-generated. This commitment helps prevent the misuse of our services for robocall purposes.

STIR/SHAKEN Implementation Status

YONDERTELE INC has not yet implemented STIR/SHAKEN due to our specific network configurations and low call customer numbers. We are actively evaluating this framework for future integration to further authenticate and verify caller ID information, ensuring enhanced protection against caller ID spoofing.

Traceback Cooperation and Contact Information

We are committed to full cooperation with traceback requests from regulatory bodies and law enforcement. We respond to all inquiries within 24 hours, demonstrating our dedication to regulatory compliance and proactive engagement.

Monitoring and Enforcement

YONDERTELE INC's enforcement policy includes rigorous monitoring of network traffic and immediate action against any violations of our acceptable use policy. We employ advanced analytics to oversee and manage call traffic, ensuring compliance with our robust standards against illegal robocalls.

Future Enhancements and Compliance

We continuously assess emerging technologies and regulatory updates to enhance our robocall mitigation strategies. YONDERTELE INC is committed to adapting its practices to meet evolving standards and technologies, ensuring the highest level of compliance and network security.

Conclusion

YONDERTELE INC remains steadfast in its commitment to safeguarding our network and customers from illegal robocalls. We pledge to maintain and enhance our mitigation efforts, ensuring compliance with FCC guidelines and contributing to industry-wide efforts to eliminate robocall threats.
