

Kansas Fiber Network, LLC - Robocall Mitigation Plan

This plan describes the specific and reasonable steps that Kansas Fiber Network (KFN) has taken to avoid the origination, carrying, or processing of illegal robocall traffic on its network.

1. Affirmative, Effective Measures to Prevent Customers from Originating Illegal Robocalls:

- a. KFN operates as an intermediate provider for a private group of entities who operate as originating providers.
- b. KFN has implemented provisions with this private group to avoid originating robocall traffic.

2. “Know-Your-Upstream-Provider” Program:

- a. KFN operates as an intermediate provider for a private group of entities who operate as originating providers. No other originating providers can use these services.

3. Call Analytics Systems:

- a. KFN leverages NAMS Firefly for call analytics, identification, blocking and fraud threshold management.

4. Commitment to Respond to Traceback Requests

- a. KFN is capable & committed to respond within 24 hours, to traceback requests from the FCC, law enforcement, and the industry traceback consortium.
