Robocall Mitigation Plan

Below is a detailed process taken by VUE IT INC. to mitigate Robocalls originated from its network.

- VUE IT Inc. have full STIR/SHAKEN implementation on all of it's connected nodes to monitor and prevent Robocalls through its upstream service providers.
- VUE IT Inc. have full control over connected PBXs on its network and doesn't allow end users to make any modifications to how calls are originated.
- VUE IT Inc. don't have analytical system/software or third-party at this time to trace Robocall.
- VUE IT Inc. is committed to respond to traceback requests from the FCC, law enforcement and other government entities to investigate and prevent illegal Robocall activities.
