

Robocall Mitigation Program

Ask Re Inc. as a small business located in Huntsville, Ontario, Canada and provides its customers with IT infrastructure & resells cybersecurity, telephony hardware/resells telephony services, and office supplies.

AskRe Inc. is a non-gateway intermediate provider that utilizes Skytel Networks for its telecommunications. Ask Re Inc. does resell Skytel services and uses 3CX as the PBX for its customers. Both the portals have multifactor authentication (MFA) turned on, and in 3CX, MFA of all customers PBX systems are on to restrict access to their systems. Ask Re Inc. employs certified users for both Skytel and 3CX and follows guidelines from Skytel and 3CX for best practices for security and setting up accounts for customers to be sure proper protocol is followed. Skytel provides Ask Re Inc. the STIR/SHAKEN obligation in their SIP invites. Ask Re Inc. network is protected by SOPHOS Firewalls, endpoint protection, as well as staff are trained and certified on remediating network issues.

Thanks,

Jordan Dobson
