No. 01.02-2024/05

Subject: Robocall Mitigation Plan

Dear Sir or Madam,

VENTAmobile LLC is analyzing traffic sent to voice service providers or intermediate providers using its proprietary Fraud Management System. This system monitors both inbound and outbound traffic in real time, employing AI and other cutting-edge technologies to identify Robocalls and other fraud scenarios.

The system detects and counters the following fraud scenarios: Robocalls, PBX Hacking, Wangiri, Wangiri Callbacks, P2S Fraud, Enterprise Callback Fraud, Flashcall Fraud, Conference Callback Fraud, IRSF, Artificially Generated Traffic, and Spam.

We commit to fully respond within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium. We will cooperate with these entities to investigate and stop any illegal robocallers using our service to carry or process calls.

Sincerely,
Viktors Topors
Member of the Board
