Computer PRO Unltd. Robocall Mitigation Program Description

1. Robocall Mitigation Measures:

Computer PRO Unltd. is committed to preventing the origination of illegal robocalls on our network. We have implemented the following measures as part of our robocall mitigation program:

a. Voice Service Provider:

We resell voice services from Skytel, a reputable provider that is actively implementing STIR/SHAKEN call authentication protocols to verify the validity of Caller ID data. Skytel verifies outbound and inbound calls.

b. Mitigation Steps:

Ensuring that all outbound calls using Caller ID information matching phone numbers in our Skytel account are automatically verified at Attestation Level A via Skytel's system.

Working with Skytel to complete their additional verification process for outbound calls using Caller IDs that do not match our Skytel DIDs.

Regularly monitoring our network for suspicious activity or patterns that may indicate the presence of illegal robocalls.

Educating our clients about the importance of preventing illegal robocalls and encouraging them to report any suspicious activity to us immediately.

c. Cooperation and Compliance:

We are committed to responding fully within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and cooperating with such entities in investigating and stopping any illegal robocallers that use our service to originate calls.

2. Certification:

Computer PRO Unltd. certifies that:

a. Program Applicability:

All calls originated on our network are subject to the robocall mitigation program described above.

b. STIR/SHAKEN Implementation:

We have implemented the STIR/SHAKEN authentication framework on the portion of our network where we originate calls using Skytel's services, and all calls originated on that portion are compliant with § 64.6301(a)(1) and (2).

c. Compliance History:

In the past two years, Computer PRO Unltd. has not been the subject of any formal Commission, law enforcement, or regulatory agency action or investigation with findings of actual or suspected wrongdoing due to transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program description.

2. Required Information (§ 64.6305(d)(4)):

a. Business Name and Primary Address:

Computer PRO Unltd., 1475 Fairgrounds Rd. STE 118, St. Charles, MO 63301
