

***DANNY'S COMMUNICATION SERVICE, INC.
1604 S. LAKEWOOD, MAGNOLIA, AR 71753
1-888-3 FOR DCS, 1-888-336-7327***

To whom it may concern:

Regarding the Robocall Mitigation Database Program, Danny's Communication Service, Inc. will continue taking the following steps in an effort to monitor and correct any issues to protect the integrity of call traffic.

1. No calls shall be allowed other than with registered and approved providers into or out of an end user's connection or gateway device.
2. No providers shall be used in the voice traffic that are not verified on the FCC RMD.
3. All traffic into an end user's connection or gateway shall be qualified to be allowed using only the direct dial numbers associated with that specific account or connection.
4. All traffic outbound from an end user's connection or gateway shall only be allowed to utilize the registered direct dial numbers associated with that specific account or connection.
5. Danny's Communication Service, Inc. shall take reasonable steps to avoid or correct any illegal robocall traffic to include the origination, carrying, or processing of illegal robocall traffic.
6. Call routing rules shall be implemented to disallow and disconnect calls not specifically included in the approved methods above.
7. All gateway devices shall be monitored and protected from malicious connections and denial of service rules are already set in place.
