

Traceback Compliance

GO MOBIT LLC is committed to adhering to all Traceback requests from the Federal Communications Commission (FCC), law enforcement agencies, and the Industry Traceback Consortium. We will cooperate fully with these entities to investigate and halt any illegal robocalling activities utilizing our services.

To mitigate illegal robocalling traffic, GO MOBIT LLC has implemented the following measures:

1. **Incoming Traffic Management:** Effective May 16, 2024, any 1+ call received from a customer not registered with the Robocall Registry Database will be rejected, regardless of its compliance with the STIR/SHAKEN protocol.
2. **STIR/SHAKEN Protocol Support:** We have verified with our switch provider that our partition is updated to fully and transparently support the STIR/SHAKEN protocol.
3. **Outgoing Traffic Compliance:** We have confirmed our compliance with the STIR/SHAKEN Traceback policies to our carriers, ensured our presence in the Robocall Mitigation Database, and verified that our equipment is capable of supporting these requirements.

By implementing these measures, GO MOBIT LLC aims to enhance the integrity of our services and contribute to the broader effort to eliminate illegal robocalls.
