To Whom It May Concern.

Teledata Cloud Services, Inc. is a small Managed Service Provider supplying Voice over IP (VoIP) services to the business community, as part of its Telephony Services section. We specialize in small business accounts with hosted voice requirements. We resell SIP Trunk services from Attested Stir Shaken providers not limited to Bandwidth, Skytel. All our client numbers are ported to the perspective SIP Providers as a requirement of providing services. We do not knowingly engage with customers whose business involves originating Robocall traffic.

All Callers are authenticated with a Username/Password

- All SIP traffic is encrypted
- Each caller is uniquely identified and referenced to a specific customer within our platform.
- Caller ID can only be set to a number owned by a customer

Teledata Cloud Services, Inc. continues to proactively monitor call activity and is constantly reviewing internal procedures to ensure adequate protection is being enforced. We will respond fully and in a timely manner to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and cooperate with such entities in investigating and stopping any illegal robocalls originated by our clients.
