Select the output options for the Scrub.

☒ Output the results to the same folder as each List to Scrub is in.

☐ Output the results to this folder:

Output method: ☒ Output the Scrub results into separate files based on type (DNC, CLEAN, INVALID, etc)

☐ Output all data in one file with a new field showing the Scrub results (DNC, CLEAN, etc)

☐ Add the Date/Time that the Scrub occurred to the name of the file.

☐ If an area code doesn't exist in the DNC list(s), output numbers with that area code into a separate file.

In addition to the DNC fileter of all our Data we are using registerd DID's on our dialers
