

EXHIBIT TO CERTIFICATION OF CALLPICKER SAPI DE CV FOR ROBOCALL MITIGATION DATABASE

To Whom It May Concern:

Indicated below are the robocall mitigation measures employed by Callpicker SAPI de CV. Callpicker is virtual phone system provider, and Callpicker preceding provider is DIDWW, which has network elements in place to filter the incoming and outgoing calls to mitigate robocalls. Callpicker will continue to implement new robocall mitigation measures as they become available.

Traceback Requests.

Callpicker commits to respond to all traceback requests from the Commission, law enforcement, regulators, and the industry traceback consortium. Callpicker vendors all comply with industry traceback requirements, as applicable.

STIR/SHAKEN Implementation.

Callpicker sends/receives only authenticated caller identification from its upstream provider, DIDWW. Further, Callpicker passes all authenticated Caller Identification information unaltered. Callpicker vendors all comply with STIR/SHAKEN, as applicable.
