About FastCast Networks, LLC:

FastCast Networks, LLC operates as a retail PBX and internet provider as well as wholesale voice services. Although FastCast Networks, LLC routing solutions benefit end users, FastCast Networks offers services to other wholesale voice service providers who implement their own Stir Shaken or Robocall Mitigation Plan. FastCast Networks, LLC operates at all times consistent with the rules, regulations and Orders of the Federal Communication Commission (“Commission”).

Know Your Customer

FastCast Networks, LLC will follow the best practices for vetting caller identity described by the NANC Call Authentication Trust Anchor Working Group.

Traceback

FastCast Networks, LLC responds to all traceback requests from the Commission, law enforcement, and the registered traceback consortium, and cooperates with such entities in investigating and stopping illegal robocallers from using FastCast Networks, LLC service to originate calls.

STIR/SHAKEN Extensions

FastCast Networks, LLC will take advantage of the STIR/SHAKEN implementation extension received under 47 CFR§ 64.6304, which states in pertinent part:

§64.6304 Extension of implementation deadline.

(a) Small voice service providers. (1) Small voice service providers are exempt from the requirements of §64.6301 through June 30, 2023.

(2) For purposes of this paragraph (a), “small voice service provider” means a provider that has 100,000 or fewer voice service subscriber lines (counting the total of all business and residential fixed residential subscriber lines and mobile phones and aggregated over all of the provider's affiliates).

FastCast Networks, LLC serves other wholesale voice service providers which authenticate the originating traffic with STIR/SHAKEN. FastCast Networks, LLC subjects the remainder of the voice traffic originating on our network to the Robocall Mitigation Plan set forth below.

[Robocall Mitigation Plan](#)

FastCast Networks, LLC uses 3rd party software in conjunction with software provided by its provider's to monitor outbound voice traffic in real time, preventing the origination of illegal robocalls for the small portion of voice traffic that does not originate from its wholesale voice service provider clients with STIR/SHAKEN. The software provides detailed reporting, identifying suspected illegal robocalls and alerts us if we originate any calls where the calling number appears invalid, unallocated, on a Do Not Originate list, in the FCC consumer complaint database or maintains a poor reputation. FastCast Networks, LLC will immediately investigate identified calls to determine whether the caller seeks to originate unlawful robocalls. If FastCast Networks, LLC determines the calls include attempts to originate unlawful robocalls, then we either warn them to stop, block the calling and/or terminate their service as consistent with industry standard operating procedures

[Stir Shaken Implementation Program](#)

FastCast Networks, LLC Telecom, LLC is fully compliant with Stir/Shaken.
