

Stir, shaken compliance

In compliance with the stir shake and mandate American com communications declares that all DIDs are signed by a company called clearly IP. America is aware of and knows all clients in our database on a personal/business level. We have directly dealt with these clients and are not selling services to other companies who then resell them to the clients we may not know.

We regularly and randomly monitor different clients call records to confirm they are not Robo calling or sending out mass unsolicited calls
