

Robocall Mitigation Plan

Date: Feb 11, 2025

1860 Southwest Fountainview
Boulevard, Port St. Lucie, FL, USA

Pursuant to 47 C.F.R. § 64.6305 TheSchmied LLC submits this report on its implementation of the STIR/SHAKEN call authentication framework and its plan to prevent and mitigate illegal robocalls. This report describes the status of its implementation of STIR/SHAKEN and the practices and procedures TheSchmied LLC (hereinafter also referred to as “company name abbreviation” or “the company”) has in place to mitigate illegal robocalls. The company may modify, add, delete or otherwise alter any of the policies and procedures described in the plan at any time to respond to changes in its business, its capabilities and its needs.

TheSchmied LLC is not an Affiliate, subsidiary or parent company of any other company. The company has not ever been sold or acquired by another company (List Company Name). The role the company plays in the network is Voice Service Provider (End User) on its network. It is currently in the process of getting registered with the STI-PA and OCN. The Officers of the company are: Carlito Herreria, CEO.

TheSchmied LLC has fewer than 100,000 subscribers and is therefore eligible for the STIR/SHAKEN implementation exemption for small carriers under 47 CFR § 64.6304. The company requires this extension to complete the implementation of the STIR/SHAKEN technology because they current operate on an SS7 network. The company is currently in the process of getting its own certificate and intends to use Ribbon Communications as its certificate authority company. TheSchmied LLC is judiciously working to prevent unlawful robocalls from originating on its network and in the meantime TheSchmied LLC has implemented the following robocall mitigation plan to address unlawful robocall traffic:

TheSchmied LLC is judiciously working to prevent unlawful robocalls from originating on its network and has implemented the following robocall mitigation plan to address unlawful robocall traffic.

TheSchmied LLC has enforceable terms of use and/or an acceptable use policy noted in its contracts. These policies define the circumstances by which the company will deny,

suspend, or terminate service to a customer. The company has a vetting and review process for upstream providers, that is, providers that send the company voice traffic that it terminates or transits to other providers.

TheSchmied LLC confirms that the upstream providers have a certification in the Robocall Mitigation Database. The company will not accept voice traffic from an unregistered provider. The Company has been informed of the upstream providers “Know-Your-Customer” guidelines and have provided them with the necessary KYC documentation they’ve requested that the company completes.

TheSchmied LLC follows the caller ID authentication best practices for vetting caller identity and operational legitimacy for new and existing customers as described by the NANC Call Authentication Trust Anchor Working Group.

This process includes the collection and review of entity-identifying information to confirm that the company has an authenticated relationship with the customer. The Company uses this authenticated information to determine whether the customer is subject to any enforcement actions that restrict the type of calling that they may do, for example, if they have been banned from initiating telemarketing calls.

TheSchmied LLC also validates, when possible, that the entity has a legitimate right to use its asserted calling numbers. The Company uses this information to support the attestation level it assigns to calls that it originates for that customer.

TheSchmied LLC contractual provisions with customers prohibit them from initiating illegal robocalls. If the Company discovers a customer is initiating suspicious robocalls, it warns them to stop. If such traffic continues, then the Company terminates their service.

TheSchmied LLC requires that upstream providers have a reasonable Robocall Mitigation Plan, including a vetting process for their customers as well as their upstream providers, and that they use call analytics to identify suspicious traffic.

Prior to installing services for new customers, the company takes the following measures to weed out end users that could potentially generate robocall traffic:

The Company uses a KYCs to confirm the following information for its customers:

- Customer's identity**
- Customer's right to use the telephone number presented on calls**
- Service Address**
- Credit History**
- Authentic and Legal Campaigns**

When the customer is a business, TheSchmied LLC also requires Business Incorporation Documents and verifies they have a reputation as a valid business that abides by the law.

TheSchmied LLC will comply fully with all conditions set forth in the FCC'S 2024 Report and Order mandating the implementation of the STIR/SHAKEN framework, as well as with the Commission's rules and policies more generally.

TheSchmied LLC has designated an individual as a dedicated point of contact for addressing traceback requests. RMD Contact is Contact Name and e-mail It either has provided the ITG with the contact information and business hours for those individuals, or will do so upon receipt of the first request from the ITG. See <https://www.ustelecom.org/the-industry-traceback-group-itg/for-providers/>. The Company will respond promptly to inquiries from the Industry Traceback Group (ITG) within 24 hours.

If a pattern of questionable activity is detected TheSchmied LLC will require its customer to remedy the problem and, if effective action is not taken, service to the customer may be suspended and/or terminated. Requests from the ITG must be submitted in writing and include the following information:

Company Name:

Company Address:

Phone Number in Question:

Requestor's Name:

Requestor's Title:

Requestor's phone number:

Requestor's e-mail:

TheSchmied LLC will provide valid law enforcement and regulatory agencies with the relevant non-proprietary information in response to reasonable and legitimate requests about illegal robocalls and suspicious activities, and implement mandated Robocall Mitigation procedures to the fullest extent possible with the goal of maximizing the mitigation

of illegal robocalls. The company will respond within 24 hours to all traceback requests from the Commission, law enforcement, and the registered traceback consortium. The company will cooperate fully with such entities in investigating and stopping any illegal robocallers that use the Company's service to originate, carry, or process illegal robocalls.

Requests from the valid agency must be submitted in writing and include the following information:

Law Enforcement Agency Name:

Agency Address:

Requestor's Name:

Requestor's Title:

Requestor's phone number:

Requestor's e-mail:

TheSchmied LLC performs the same mitigation steps for all outbound calls regardless of our role in the call chain for a particular call. The Company has not had any agency action or investigation due to suspected unlawful robocalling or investigations.

TheSchmied LLC is not subject to any Commission, Law Enforcement, or Regulatory Agency Action or investigation due to suspected unlawful robocalling or spoofing.

TheSchmied LLC does not wish to publicize any private and/or classified information that has the potential to expose the Company to fraud and/or anti-competitive actions. Therefore, the Company will submit a redacted version for the public site and requests that the FCC keep the unredacted version CONFIDENTIAL.
