

Plus10.ie

Declaration of Compliance with FCC RoboCall Mitigation Plan

My entity Plus10.ie is used solely for purposes of my hobby of VOIP technology and is non-commercial. Members of the general public have no access to the apps/devices I use.

Any call that originates with my service will have the true calling number and name displayed and will not portray itself in any misleading fashion.

Dialling the number that I present on caller id will cause my physical phone to ring or go to voice mail.

I will not pose as any caller that I am not, and the public have no access. It is my responsibility alone to ensure that there is no mis-use.
