

Robocall Mitigation Program - klikniavolej.cz, s.r.o.

02-21-2025

Company Information:

Company Name: klikniavolej.cz, s.r.o.

FCC FRN: 0036705465

Mitigation Statement:

Our company does not directly originate or terminate calls to the U.S. or Canada.

All U.S.-bound traffic is routed exclusively through Localphone Ltd (RMD0007054), a wholesale provider that is responsible for STIR/SHAKEN compliance.

As a Foreign Voice Service Provider without direct access to the U.S. PSTN, we are not required to implement STIR/SHAKEN ourselves, as per FCC rule 47 CFR § 64.6304(d).

We maintain strict customer verification policies and comply with all industry best practices to prevent illegal robocalling and fraudulent activities. Additionally, our company only generates a very low volume of calls to the U.S. and Canada, with only a few calls per month, further reducing any potential risk associated with robocalling or spoofing.
