

Robocall Mitigation Program Description

Company Name: Jooshore

FRN: 0036801025

Filing Type: Voice Service Provider

STIR/SHAKEN Status: Full Implementation

Robocall Mitigation Plan Overview

Jooshore LLC takes illegal robocall prevention seriously and has implemented a robocall mitigation program designed to detect, investigate, and prevent the origination of illegal robocalls.

Mitigation Practices

- We verify the identity of all customers before activating service.
- We monitor traffic for high-volume or suspicious calling patterns.
- We maintain call analytics and flag suspected robocall activity.
- We immediately respond to traceback requests and law enforcement inquiries within 24 hours.
- We maintain up-to-date contact information for traceback coordination.

Traceback Cooperation

We fully cooperate with the FCC, USTelecom Industry Traceback Group, and law enforcement for all traceback requests.
