

Assimilated Communications, LLC

ROBOCALL MITIGATION PLAN

Assimilated Communications, LLC is committed to cooperating with the Federal Communications Commission (FCC) in preventing and mitigating illegal robocalls. This statement describes the measures the Company has implemented to comply with applicable FCC robocall mitigation requirements.

Assimilated Communications, LLC is a non-facilities-based reseller / white-label provider. The Company does not originate traffic directly to the PSTN and relies exclusively on underlying U.S.-based facilities-based carriers for call transmission.

In compliance with 47 CFR §64.6305, Assimilated Communications, LLC maintains a robocall mitigation program reasonably designed to prevent unlawful robocalls. The program includes customer due diligence procedures, monitoring of traffic patterns, prompt response to traceback requests, and suspension or termination of customers engaged in illegal robocalling.

Know Your Customer (KYC)

The Company follows a structured onboarding process to verify the identity and legitimacy of its customers. This process includes background screening, credit review, business verification, and manual validation procedures prior to activating service.

Traceback Cooperation

The Company commits to fully cooperating with the FCC, authorized traceback consortiums, and law enforcement agencies. The Company responds to all traceback requests within 24 hours and takes appropriate action to investigate and mitigate any suspected illegal traffic.

STIR/SHAKEN Compliance

As a pure reseller, Assimilated Communications, LLC relies on its upstream providers to implement STIR/SHAKEN in accordance with FCC requirements. The Company confirms that its underlying carriers have certified compliance and are listed in the FCC Robocall Mitigation Database. The underlying

providers comply with applicable STIR/SHAKEN standards and robocall mitigation regulations when delivering voice traffic.

Assimilated Communications, LLC has underlying providers from which it receives voice traffic:
