

Robocall Mitigation Program Description

Company/Organization Name: Finfit Technology LTD

Submission Date: June 10, 2025, 04:16 PM IDT

Identification Number: 517093993

1. General Statement

Finfit Technology LTD is committed to reducing robocalls and associated fraud in compliance with FCC requirements. This program outlines the measures and procedures we implement to meet these obligations. Finfit Technology LTD develops the "Keep My Number" app, an innovative solution designed to help users retain their phone numbers when they are outside their home country. The app enables seamless number retention by providing VoIP-based services, ensuring users can maintain their existing numbers for calls, texts, and other communications without interruption, even while traveling or living abroad.

2. Identification and Mitigation Measures

- **STIR/SHAKEN Implementation:** We implement STIR/SHAKEN standards for all our VoIP calls to authenticate caller identities.
- **Monitoring and Detection:** We use advanced monitoring systems to identify robocalls and suspicious activity.
- **Blocking:** Unauthenticated or suspicious calls are automatically blocked.
- **Collaboration:** We cooperate with authorities and other providers to report and mitigate threats.

3. Internal Procedures

- **Employee Training:** Our staff undergoes annual training on identifying and handling robocalls.
- **Reporting:** All instances of illegal calls are immediately reported to the FCC and relevant authorities.
- **Updates:** We regularly update our protective systems in response to new threats.

4. Certification

I certify that the information in this document is accurate and true to the best of my knowledge.
