

FCC Robocall Mitigation Program Description

Robocall Mitigation Program Description

1. Filing Entity:

Tech Amelia, LLC

2. Role:

Voice Service Provider without a STIR/SHAKEN obligation

3. Statement of Exemption:

Tech Amelia, LLC does not originate calls on its own IP-based network and is therefore exempt from implementing STIR/SHAKEN under 47 CFR § 64.6304. All outbound traffic is originated through upstream carriers Telnyx and VoIP Innovations, who are fully compliant with the STIR/SHAKEN framework.

4. Robocall Mitigation Practices:

Tech Amelia, LLC follows the robocall mitigation requirements of 47 CFR § 64.6305(a) by:

- Using upstream providers (Telnyx and VoIP Innovations) that have implemented STIR/SHAKEN across their networks
- Monitoring call usage across client accounts to detect suspicious robocall behavior
- Responding within 24 hours to any traceback or investigation requests from the FCC, law enforcement, or traceback consortium
- Enforcing customer usage agreements that prohibit illegal robocall or spoofing behavior
- Investigating abnormal call patterns and suspending accounts that violate usage terms

5. Contact for Traceback Requests:

Steve Miniea

Owner, Tech Amelia, LLC

Email: steve@techamelia.com

Phone: 904-430-0110

6. Certification:

Tech Amelia, LLC affirms that it has not been removed from the Robocall Mitigation Database and maintains compliance with all mitigation obligations under 47 CFR § 64.6305.
