

## **Robocall Mitigation Program Description**

Entity Name: ARMES HUNT FUNERAL HOME INC

FCC Registration Number (FRN): 0037178308

Date: June 22, 2025

Principal: Gayle Armes - Owner & Managing Director

### **Mitigation Plan:**

ARMES HUNT FUNERAL HOME INC is a licensed funeral service provider based in Indiana. All outbound calls made by the business are strictly limited to legitimate business communications such as service reminders, urgent notifications, or coordination with clients and vendors. The entity does not originate robocalls for marketing purposes and does not engage in or support illegal robocalling activity.

All calls originate from in-house systems and use upstream SIP trunk providers who are responsible for any STIR/SHAKEN implementation. The company does not have its own switching infrastructure, nor does it acquire telephone numbers directly from NANPA.

### **Mitigation procedures include:**

- Using only verified, callable numbers as caller ID (+E.164 format).
- Reviewing traffic logs for irregular or suspicious behavior.
- No acceptance or transmission of third-party traffic.
- Immediate cooperation with law enforcement or traceback consortiums if needed.

### **Structure:**

The business has no affiliates, no subsidiaries, and no parent companies. The principal and sole manager is Mr. Gayle Armes.

Exemption Statement:

Per 47 CFR § 64.6304(f)(2), the filer is exempt from implementing the STIR/SHAKEN framework as it does not operate its own network nor acquire numbering resources directly. All calls are routed via upstream carriers who manage STIR/SHAKEN obligations.

This mitigation plan is provided in good faith to fulfill the Robocall Mitigation Database requirements for voice service providers without a STIR/SHAKEN implementation.
