Service Description and Provider Role

Broadstripes LLC is a Software-as-a-Service (SaaS) provider that operates exclusively as an SMS messaging service. We do not provide voice services and do not originate any voice calls.

Our only involvement with voice communications is limited to passive call forwarding: when inbound voice calls are received on telephone numbers we have leased for SMS purposes, we automatically forward these calls to telephone numbers designated by our customers. We do not originate, authenticate, modify, or otherwise process voice traffic.

STIR/SHAKEN Exemption

Broadstripes LLC is exempt from STIR/SHAKEN implementation requirements under 47 CFR § 64.6301(a) because:

1. We do not originate voice calls
2. We are not a voice service provider as defined by FCC regulations
3. We operate exclusively as an SMS messaging service provider
4. Our only voice-related functionality is passive forwarding of inbound calls

Robocall Mitigation Practices

While Broadstripes LLC does not originate voice calls and therefore cannot engage in robocalling, we maintain the following practices:

- **Know Your Customer (KYC) Procedures:** All clients undergo identity verification prior to being granted access to our SMS services. This includes business verification and contact validation.
- **Acceptable Use Policy:** Our Terms of Service prohibit all forms of spam, harassment, and illegal messaging activities. Violations result in immediate suspension or termination of access.
- **Compliance Cooperation:** Broadstripes LLC responds promptly to any inquiries from the FCC, law enforcement, or industry groups regarding our services or customers.
- **Number Registration:** All telephone numbers leased by Broadstripes LLC are properly registered and used exclusively for legitimate SMS messaging purposes.

FCC Compliance Status

Broadstripes LLC affirms that it operates in compliance with all applicable FCC regulations for SMS service providers.

We have not been subject to any FCC enforcement action or prohibited from filing in the Robocall Mitigation Database.
