

Robocall Mitigation Plan

Filing Entity: **Callbotics LLC.**

Role: Voice Service Provider without direct STIR/SHAKEN implementation

Robocall Mitigation Practices:

Callbotics LLC. ensures mitigation of illegal robocalls through:

- Partnering exclusively with Telnyx, which has implemented STIR/SHAKEN on its entire network.
- Coordinating with its Indian affiliate to perform KYC and traffic screening of all customer activity.
- Including binding clauses in all client agreements prohibiting:
 - Illegal robocall campaigns
 - Number spoofing or misrepresentation
 - Abuse of automated call systems
- Enforcing traffic caps, usage alerts, and account suspensions on detection of any suspicious call patterns.
- Ensuring that all traceback and investigation requests from the FCC, ITG, or law enforcement are responded to within 24 hours.

Certification:

We certify that **Callbotics LLC** participates in a comprehensive robocall mitigation program through its affiliate and trusted carrier relationships, and that we will fully cooperate with FCC and related traceback authorities.
