

## **FreJun Inc**

### **ROBOCALL MITIGATION PLAN**

**FreJun Inc** is committed to cooperating with the Federal Communications Commission (FCC) in preventing and mitigating illegal robocalls. This statement describes the measures the Company has implemented to comply with applicable FCC robocall mitigation requirements.

**FreJun Inc** certifies compliance with the robocall mitigation requirements of the Federal Communications Commission under 47 C.F.R. §64.6305 and related STIR/SHAKEN authentication and traceback obligations as updated for 2026 enforcement and Robocall Mitigation Database filing requirements.

**FreJun Inc** operates as an **originating voice service provider** under its assigned Operating Company Number (OCN) -640L and originates outbound voice traffic to U.S. terminating networks. The Company also operates as a **gateway service provider** for international voice traffic entering the United States and implements reasonable and effective robocall mitigation measures for both domestic and international traffic origination and transit functions.

#### **Know Your Customer (KYC)**

The Company maintains Know Your Customer (KYC) onboarding procedures, including business identity validation, operational legitimacy review, and traffic profile assessment prior to service activation. Enhanced due diligence is applied to high-risk traffic sources such as high-volume outbound calling platforms, marketing campaigns, or automated calling systems.

#### **Traceback Cooperation**

The Company maintains traceback cooperation procedures and responds to traceback requests within 24 hours. The Company cooperates with law enforcement agencies, industry traceback consortiums, and regulatory authorities in investigating suspected illegal traffic.

#### **STIR/SHAKEN Compliance**

**FreJun Inc** maintains control over outbound caller identification, call routing logic, and traffic

origination policies across its network. The Company implements STIR/SHAKEN authentication across IP-enabled portions of its network and maintains its own Service Provider Code (SPC) token and digital certificate credentials.

### **Traffic Monitoring and Enforcement**

The Company reserves the right to refuse or block traffic from any party where illegal robocalling, spoofing, or use of unauthorized or invalid originating numbers is detected or suspected. The Company may block originating numbers, terminating numbers, trunks, or suspend or terminate customer accounts to prevent unlawful traffic from transiting its network.
