

Robocall Mitigation Plan

Company Name: Mate LLC FRN: 0037407178

Date: Aug 19, 2025

1. Certification Type

Mate LLC certifies to the Federal Communications Commission that it has implemented the STIR/SHAKEN caller ID authentication framework on the IP portions of its network and has instituted a robocall mitigation program on all other parts of its network where STIR/SHAKEN is not feasible. This certification is submitted pursuant to 47 CFR § 64.6305(a)(2).

2. Robocall Mitigation Practices

Mate LLC implements the following robocall mitigation measures to prevent the origination of illegal robocalls:

- We vet all customers prior to providing outbound voice service. We require valid business registration, identification, and a clear explanation of intended usage.
- We monitor traffic patterns for anomalous or suspicious calling behavior, including high-volume short-duration calls, sequential number calling, and known spam signatures.
- We restrict or terminate service to customers identified as violating our terms or engaging in illegal robocall activity.
- We cooperate fully with the Industry Traceback Group (ITG) and law enforcement authorities, and we respond promptly to traceback requests.
- We maintain internal call records to support traceback efforts and proactively flag suspicious behavior.
- We provide our customers with education on TCPA, FCC rules, and prohibited robocall activity.

3. Traceback Cooperation

Mate LLC participates in traceback investigations coordinated by the ITG and responds promptly to any formal traceback requests from the Commission, law

enforcement, or the ITG.

4. Point of Contact for Mitigation Matters Name: Anthony Ermscher

Title: CEO
