Robocall Mitigation Program Description

Filing Entity: OMCOM Tech (EL HIERRO COMERCIAL SRL)

FRN: 0037420494

Type: Foreign Voice Service Provider

Program Description:

OMCOM Tech is a Foreign Voice Service Provider originating calls from outside the United States and Canada. Although not required to implement STIR/SHAKEN under FCC rules for foreign providers, OMCOM Tech maintains a Robocall Mitigation Program to prevent illegal robocall traffic.

The measures include:

1. Use of only authorized SIP trunks to terminate calls.
2. Validation of caller ID headers (From: and P-Asserted-Identity) on all outbound calls.
3. Maintenance of call logs to respond fully to traceback requests from the Commission, law enforcement, and the industry traceback consortium within 24 hours.
4. Commitment to cooperate with all regulatory and enforcement entities to investigate and stop illegal robocalls.

Exemption:

This filing entity qualifies for the Foreign Voice Service Provider exemption under 47 CFR §64.6305(c)(2) as it originates calls from outside the U.S. and Canada.
