ATTENTION SMALL BUSINESSES: Do you want to further promote your business? The Small Business Administration (SBA) offers a government website called the Dynamic Small Business Search (DSBS). Government contracting/purchasing officials use DSBS in their market research to find viable small businesses for their contracting needs. DSBS collects and provides supplemental information about your company including past work performance, client referrals, and detailed capabilities statements; information that could reduce the selection process time. Federal prime contractors also use the DSBS to find small businesses to include in their subcontracting plans.
