

Robocall Mitigation Plan

Filed by Ringstar FZE LLC (FRN: [0037459070])

This Robocall Mitigation Plan is submitted in accordance with FCC 47 CFR § 64.6305. Ringstar FZE LLC certifies under Option 3 (No STIR/SHAKEN Implementation). As a foreign provider, Ringstar FZE LLC does not currently have access to the U.S. STIR/SHAKEN certificate authority. Accordingly, Ringstar FZE LLC implements a robust robocall mitigation program to prevent unlawful robocall traffic.

Robocall Mitigation Program

Because Ringstar FZE LLC does not currently implement STIR/SHAKEN, the following mitigation steps are in place:

- ****Know Your Customer (KYC):****
 - Verify legal incorporation documents and government-issued identification.
 - Screen customers for prohibited use cases (e.g., spoofing, high-risk auto-dialing).
 - Require contracts prohibiting unlawful robocalling.
- ****Traffic Monitoring:****
 - Monitor call volume, duration, and short call ratios in real time.
 - Flag unusual patterns such as neighbor spoofing, sequential dialing, and high-volume short calls.
 - Suspend or terminate accounts exhibiting suspicious behavior.
- ****Traceback Response:****
 - Respond to traceback requests from the FCC, ITG, and law enforcement within 24 hours.
 - Maintain call detail records sufficient to trace traffic to the source customer.
- ****Blocking and Enforcement:****
 - Immediately block or suspend traffic identified as unlawful by the FCC, ITG, or partner carriers.

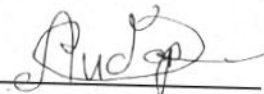

- Permanently terminate repeat offenders.
- ****Do-Not-Originate (DNO) Checks:****
 - Regularly check outbound traffic against industry DNO lists.
 - Block calls from invalid, unassigned, or DNO-listed numbers.

Compliance and Updates

- This plan will be updated within 10 business days of any material change.
- Ringstar FZE LLC will re-certify annually by March 1 as required.
- Company details in CORES and the RMD will remain accurate and current.

Certification

I certify under penalty of perjury that the above mitigation practices are accurate, and Ringstar FZE LLC implements them in good faith to prevent unlawful robocalls on its network.
