

PBXstore, Inc.

Robocall Mitigation Plan (Public Summary)

PBXstore, Inc. resells voice services from PayG LLC dba SkySwitch (RMD0002940) and CoreDial (RMD0002771), both of which have implemented STIR/SHAKEN protocols in their IP networks.

PBXstore, Inc. fully cooperates with the FCC, law enforcement, and the Industry Traceback Group. We have designated a compliance contact to respond to traceback requests within 24 hours.

All new customers are verified through Know Your Customer (KYC) processes that include business verification, account screening, and contractual prohibitions against illegal robocalling or spoofing. Customer traffic is monitored for anomalies, and PBXstore, Inc. reserves the right to suspend or terminate service where abuse is detected.

We are committed to preventing the origination or transmission of unlawful robocalls over our network and will update this plan as FCC rules evolve.
